

# Industrial Seals & Gaskets

## from AB Technology Group

- Ring Gaskets
- Full Face Gaskets
- High Temperature Gasket Rope
- Gasket Sheet Materials

Materials for +500°F to +2300°F Continuous Exposure (+260°C to +1260°C) and  
+3000°F Short Duration Exposure (+1648°C)

Industrial • Commercial • Marine • Aerospace • Military

### Primary Materials

Fiberglass – Silica – Ceramic – Silicone Elastomer  
PTFE – Expanded PTFE – EPDM – VITON  
Stainless Steel – Inconel

### Available Coatings

Vermiculite – PTFE – Graphite – Silicone Elastomer  
Pressure Sensitive Adhesive

### Finished Products

Rope – Tape – Fabric  
Tadpole Gaskets – Boiler Gaskets  
Ring & Face Gaskets – Slit and Machined Envelope Gaskets  
General Industrial Gaskets  
General Industrial Sheet Gasket and Packing

*Quality Products Proudly Made at USA & Canadian Plants*

## For Your Notes

## **NOTES**

**Premium vs. Industrial.** Premium and Industrial products provide the same dimensional values in terms of width, inside diameter, thickness or wall thickness; however, Premium products are fabricated from a higher bulk yarn and with a denser weave. Premium products will weigh more and are stiffer than the Industrial version as a result. Premium can be considered a Heavy Duty version of the Industrial item.

**Silica vs. Ceramic Fiber.** With almost the same temperature range, Ceramic Fiber offers a harder/stiffer material than Silica in the same form. Ceramic based materials are typically composed of approximately 50% SiO<sub>2</sub> and 50% Al<sub>2</sub>O<sub>3</sub> fibers while Silica based materials are almost 100% SiO<sub>2</sub> fibers. Ceramic based materials have a slightly higher continuous use and slightly higher excursion temperature range.

**PTFE Products.** Polytetrafluoroethylene (PTFE) is a fluorocarbon-based polymer material. A DuPont version of PTFE is known under the trademark of Teflon®. It is made by free radical polymerization of tetrafluoroethylene and has a carbon backbone chain. Each carbon has two fluorine atoms attached to it. It is hydrophobic (hates water), biologically inert, non-biodegradable and also has very low friction characteristics. The chemical inertness of PTFE is related to the strength of the fluorine-carbon bond and this is why nothing sticks to PTFE. When stretched, PTFE forms a strong porous material called expanded PTFE (ePTFE) which makes excellent mechanical sealing materials.

**Temperature Ratings.** The temperature ratings listed for these products is the maximum continuous "heat soaked" exposure. The ratings are deliberately conservative so that there will be a buffer of several hundred degrees to allow for over-temperature conditions without detrimental effect or failure of the material.

For most materials, short duration exposure to considerable higher temperatures is possible. Short duration can be several minutes to an hour, and depends on the particular circumstances and installation. One of the important considerations is "heat soak" – materials with thermal inertia will withstand extended temperature exposure without becoming heat soaked.

## **Materials**

**TecPac™.** TecPac is a compressed sheet, available in 1/64", 1/32", 1/16", 3/32" and 1/8" thick sheets, 60" x 60" square. It is a non-asbestos compressed sheet which has similar properties as asbestos in low temperature applications, and can be used for similar applications. It has anti-stick properties and can be used against gases, water, steam, organic acids, alkalis, aromatic and aliphatic hydrocarbons, oils, greases and refrigerants. Available cut to shape as a filler for slit and machined gaskets.

**TecGraph™.** TecGraph graphite laminate sheet is used for high temperature applications and offers excellent chemical resistance. Available in 1/64", 1/32", 1/16" and 1/8" thick sheets, 39.4" x 39.4" square. Purity is >98%, Ash content is <.5%, Temperature rating of 2500°C.

**TecBlue™.** TecBlue is a blend of polymers and reinforcing materials which provides high compressibility, conformability, heat and chemical resistance. Used in sealing glass-lined equipment in food and chemical processing. Not to be used as a primary gasket material alone – must only be used as a filler. Available in 1/16" and 1/8" thick sheet, 68" x 71" square. Available cut to shape as a filler for slit and machined gaskets.

**EPDM.** Ethylene Propylene. EPDM rubber is an elastomer which is characterized by wide range of applications. The E refers to Ethylene, P to Propylene, D to diene and M refers to its classification in ASTM standard D-1418. The "M" class includes rubbers having a saturated chain of the polymethylene type. EPDM exhibits satisfactory compatibility with fireproof hydraulic fluids, ketones, hot and cold water, and alkalis, and unsatisfactory compatibility with most oils, gasoline, kerosene, aromatic and aliphatic hydrocarbons, halogenated solvents, and concentrated acids. The main properties of EPDM are its outstanding heat, ozone and weather resistance. The resistance to polar substances and steam are also good. It has excellent electrical properties. It has the ability to retain light colour. Good weathering, ozone and acid resistance. Continuous operating temperature range 110° - 120° C, with specialty EPDM's having an upper range of 150° C.

---

**VITON.** Fluoroelastomer. Viton is a brand of synthetic rubber and fluoropolymer elastomer commonly used in O-rings and other moulded or extruded goods. The name is a registered trademark of DuPont Performance Elastomers L.L.C

Viton fluoroelastomers are categorized under the ASTM D1418 & ISO 1629 designation of FKM. The fluorine content of the most common Viton grades varies between 66 and 70%. Good oil, acid and solvent resistance at high temperatures. Continuous temperature application range of 200° - 210° C.

**Neoprene.** Neoprene (polychloroprene) is a family of synthetic rubbers that are produced by polymerization of chloroprene. It is used in a wide variety of applications, such as in wetsuits, computer mouse pads, electrical insulation, gaskets, etc. Neoprene is a DuPont trade name. Well suited for gasket applications due to its chemical inertness. Temp range -30°F to +170°F, excursions to +200°F. Tensile 1050 to 1500 psi. Excellent oil resistance, self extinguishing, non flammable, good weathering resistance.

**Buna-N (Nitrile).** Standard Nitrile is also known as Buna-N. Excellent resistance to petroleum-based oils and fuels, water and alcohols. Nitrile also has good resistance to acids and bases, except those with a strong oxidizing effect. Avoid highly polar solvents (Acetone, MEK, etc.) and direct exposure to ozone and sunlight. Useful temperature range of -55° to 120°C (-65° to 248°F)

## **Selecting Materials**

Selecting materials and designing a protection system can be assisted by understanding the kind of heat in the situation.

**Ambient Heat.** This is the surrounding atmospheric temperature in the area, situation or environment. For example, in an office it might be 70°F, in a firewalk it might be 2000°F.

**Conductive Heat.** This is the heat from direct contact with an object: picking up a hot try from an industrial oven or kiln at 500°F or the surface of a furnace wall at 1000°F

**Radiant Heat.** Objects like the Sun, or fire, or molten metal streams, glowing slabs or billets of metal radiate heat waves, which can travel through space or air or objects, and is absorbed by people or other objects. A great example is that it feels cooler standing in shade on a hot day as the shade blocks the radiant heat waves from the sun.

**Molten Metal Splash or Weld Splatter.** Materials with high temperature silicone rubber coating provide excellent protection from molten metal splash and weld splatter as the splash/splatter does not stick to the silicone. As well, the silicone has a high thermal dispersion, quickly dissipating the heat and preventing burn-through. The heavier or larger the splash/splatter then the heavier grade of silicone coated material should be selected.

# Industrial Seals & Gaskets

Fax Orders: 610-906-3549 Telephone Orders: 610-340-9054 [www.IndustrialSealAndGasket.com](http://www.IndustrialSealAndGasket.com)

---

Technical Assistance: (888) 365-2038 or [info@IndustrialSealAndGasket.com](mailto:info@IndustrialSealAndGasket.com)

**Pricing:** Prices shown are \$USD and may be subject to change without notice.

**Credit Card, Fax & E-mail Orders:** We accept Visa, MasterCard, Discover & American Express. Fax your Purchase Order to 610-340-9054 or email to: [orders@IndustrialSealAndGasket.com](mailto:orders@IndustrialSealAndGasket.com).

**Verbal PO's:** Call 610-906-3549. We will accept verbal PO's from existing customers by using a generic PO form; once all the data has been entered from your verbal instructions it will be faxed to you for approval. Please authorize it and then fax it to us. Minimum order is \$100.00. Some products also have minimum order quantity levels.

**Account Set-up:** Please complete our Account Application (at rear of catalog) and return the form along with your standard credit reference sheet. Processing can take 2 to 3 business days.

**Most Orders Shipped Same Day:** The vast majority of products are always in stock and will ship same day providing you order on-line, by fax or call by 1PM EST. Fabricated items require more time – please call for a fabrication quote. Sleeve with Velcro can typically be produced in 2 to 3 days, however it can run 5 to 7 business days for large orders or if we are particularly busy. Other fabrications such as equipment covers, curtains, shields, muffler and turbo covers, etc. can take up to 10 business days. Please call for an estimate.

**Shipping:** Unless otherwise specified, orders will be shipped UPS ground, prepaid and billed or on your account. For Dealers or Distributors, Blind or Drop shipping to your customer is available – please specify on your PO if you will be providing a Packing List and send it to us ASAP. We can also use your carrier and account if you prefer.

**Products & Applications:** Our High Temperature Protection Materials have wide ranging application in industry, aviation, marine and military markets. They are most commonly used in steel making, metal processing & refining, smelting, foundries, robotic welding, heat treating, steam plants, power plants (fossil and nuclear), engine and vehicle manufacturing, tire and glass manufacturing, brick & tile manufacturing, petrochemical refining, etc. In fact, any industry with a hot process, boiler, oven or kiln can use our products. It is the customers' responsibility to ensure the suitability of products to applications.

**Customer Service Excellence:** We are focused on customer service; your assurance of the correct product, quality checked & delivered on-time. All products are RoHS compliant.

## We Offer Shipping From USA and Canadian Warehouses

Check for New Catalogs & Updates at our website – [www.IndustrialSealAndGasket.com](http://www.IndustrialSealAndGasket.com)

USA: 431 State Street Box 1491, Ogdensburg, NY 13669

CANADA: 114 Shore Dr., Bath, ON K0H 1G0

## Solid PTFE Ring Gaskets: 150#

- Made from PTFE

Solid PTFE Ring Gaskets. Excellent corrosion resistance, high pressure resistance, easy to use, soft and is ideal for enamel, glass, and especially rough and special shaped sealing.

Excellent resistance to almost all solvents, caustics and acids.

PTFE melting point is 620°F / 327°C.

- PH Range: 0 to 14
- Maximum tensile: 4260 psi (30Mpa)
- Temperature Range: -500F / -268C to +500F / +260C
- Pressure Limits: 2900 psi / 200 kgf/cm2 (20Mpa)

550°F / 287°C continuous rating

This is a high-performance solid PTFE ring gasket.

## Expanded PTFE 150# Ring & Full Face Gaskets

- Made from ePTFE

Expanded PTFE Ring & Full Face Gaskets. Excellent corrosion resistance, high pressure resistance, easy to use, soft and is ideal for enamel, glass, and especially rough and special shaped sealing.

Excellent resistance to almost all solvents, caustics and acids.

PTFE melting point is 620°F / 327°C.

- PH Range: 0 to 14
- Maximum tensile: 4260 psi (30Mpa)
- Temperature Range: -500F / -268C to +500F / +260C
- Pressure Limits: 2900 psi / 200 kg/cm2 (20Mpa)

550°F / 287°C continuous rating

These are high-performance expanded PTFE ring or full-face gaskets.

## Machined PTFE Envelope Gaskets: Style 115 Square Cut, 150#: TecBlue / TecPac / TecBlue or TecBlue / Steel / TecBlue Filler

- Envelope Made from PTFE
- Available with TecBlue / TecPac / TecBlue sandwich filler or TecBlue / Corrugated Steel / TecBlue sandwich.
- Used in all industries for its heat & chemical resistance
- 550°F / 287°C continuous rating

This is a high-performance machined PTFE envelope gasket, with either **TecBlue / TecPac / TecBlue** sandwich filler or **TecBlue / Corrugated Steel / TecBlue** sandwich filler.

## TecPac Gaskets: 150#

TecPac is a non-asbestos compressed sheet which has similar properties as asbestos in low temperature applications, and can be used for similar applications. It has anti-stick properties and can be used against gases, water, steam, organic acids, alkalis, aromatic and aliphatic hydrocarbons, oils, greases and refrigerants

## EPDM Gaskets: 150#

Good weathering, ozone and acid resistance

Continuous operating temperature range 110° - 120° C

Compatibility with fireproof hydraulic fluids, ketones, hot and cold water, and alkalis

Unsatisfactory compatibility with most oils, gasoline, kerosene, aromatic and aliphatic hydrocarbons, halogenated solvents, and concentrated acids

EPDM Gaskets: 150#

For the "X" value in the part number: use "1" to specify 1/16" (.0625") / 1.59mm;  
use "2" to specify 1/8" (.125") / 3.18mm

For the "Y" value in the part number: use "RG" to specify Ring Gasket  
use "FF" to specify Full Face Gasket

For the "Z" value in the part number: use "N" to specify New Size  
use "O" to specify Old Size

**New or Old Standard Sizes – Same Price.**

**Unless otherwise specified, Old Standard sizes will be provided**

Less 5% - 100 pieces and up. Less 7% - 500 pieces and up.

## High Temperature Universal (Tacky Cloth) Handhole Gaskets – Oval With or Without Wire Insert - Plain, Graphite or PTFE Coating

These gaskets are made from TFF universal fabric and is especially suited where a rough or uneven surface or flange exists. The fabric is a fiberglass base with a special white rubber formulation. The fabric is tacky, and has a plastic film surface covering that is removed before installation. The fabric will stick to itself once the film is removed.

**Wire Inserted Version:** The fill (widthwise) yarn for this version of the fabric has a twisted brass wired formed with it, providing additional strength and electrical conductivity/shielding.

550°F / 287°C continuous rating, excellent sealing properties as a gasket material

High Temperature Universal (Tacky Cloth) Handhole Gaskets: Oval 2" x 3" to 6" x 8"							
Part Number	Size in	"X" value in Part Number, Specify: A / B / C / D / E / F

For the "X" value, use G, H, I, J, K, L, M, N, or O to specify flange width and gasket thickness

For the "Z" value, use "W" to specify with wire insert and "N" to specify no wire

With or Without Wire Insert – Same Price

**Add:** "-GC" to part number to add graphite coating. Adds \$3.00 per gasket

"-PTFE" to part number to add PTFE dipped. Adds \$2.00 per gasket

## Spirotallic Spiral Wound Gaskets – Style 913

These gaskets are 304 Stainless Steel with graphite filler with guide ring in low carbon steel

## Standard Terms and Conditions

- Terms and Conditions Applicable:** The terms and conditions set forth herein shall apply to the order referred to in herein. Our acceptance of this order is expressly made conditional upon assent to the terms and conditions set forth herein, which comprise all of the terms and conditions between AB Technology Group and the purchaser respecting this order, except to the extent that any term or condition shall have been changed or modified as set forth in this agreement. Any other changes or modifications in the terms and conditions contained herein must be specifically agreed to in writing by AB Technology Group.
- Order Minimum:** There will be a minimum order amount of \$75.00 required for each order received. There will be an additional \$15.00 fee for adding items to an existing order under \$100.00. Order minimum does NOT include any tooling, overtime or freight charges. This \$15.00 fee can apply to any change made to an existing order, ex. method of shipment, shipping destination, etc.
- Cancellation:** Any order may not be cancelled for any reason without the consent of AB Technology Group. No orders can be cancelled after production has begun.
- Delivery:** Any shipping dates set forth in the purchase order or any acknowledgment of the order are the best estimate of actual delivery, but may be changed by mutual agreement. AB Technology Group shall not be liable for any delays in delivery or default by reason of any occurrences or contingencies, including, but not limited to fire, flood, embargo, strike, failure to secure materials from suppliers, government restrictions considered "force majeure" or any other circumstance beyond AB Technology Group's control which shall prevent AB Technology Group from making the deliveries in the normal and usual course of business.
- Risk of Loss:** Notwithstanding title to or ownership of the products, risk of loss shall pass to the purchaser as soon as the products are invoiced.
- Taxes and Fees:** Any taxes or fees imposed by any federal, provincial, state, municipal or other governmental authority, including any import or export duty that may be applicable to the sale or delivery or transportation of the product or services that may be sold by reason of this order and any and all duties, tariffs and brokerage charges, shall be added to the price of the order and paid by the purchaser except where the purchaser shall have provided a proper certification of exemption therefrom.
- Method of Shipment:** Unless otherwise specified in any purchase order, acknowledgement or other specific document relating to this order, all shipments made pursuant to the order shall be made F.O.B. Bowmanville ON, or nearest stocking point. In no event shall the method of shipment modify the risk of loss as specified herein. All freight collect unless otherwise specified.
- Terms of Payment:** Unless otherwise specified in the purchase order or acknowledgement, all products shall be sold with full payment due within thirty (30) days, if paid within ten (10) days of date of invoice, buyer may deduct one percent (1%) of the cost of goods only. Discounts are not applicable to tooling, expediting, or transportation charges. Any account for which payment has not been received within sixty (60) days from date of invoice will automatically be put on credit hold. Credit hold will also halt production of any other purchase orders that are in our manufacturing. AB Technology Group welcomes payments by credit cards and electronic fund transfers
- Security Interest:** Until full payment of the purchase price for any product and/or any service order pursuant to the order, AB Technology Group shall retain a security interest in such products and may, at its option, and without further agreement or signature by the purchaser, file evidence of such security interest.
- Warranties:** AB Technology Group warrants to the original purchaser that its products, under normal use, shall be free from defects in material or workmanship provided that (a) the product has not been tampered with or repaired by any person other than AB Technology Group, and (b) the product has been sold or used within the time period specified for the shelf life of the product, and (c) the purchaser notified AB Technology Group in writing of any such defects immediately after discovery thereof. AB Technology Group shall not be liable for any damages for any product resulting from the misuse or negligence of others or if any alterations have been made in the product which have not been authorized in writing by AB Technology Group. THIS WARRANTY IS GIVEN IN LIEU OF ANY OTHER REPRESENTATION OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.
- Limitation of Liabilities:** The sole and exclusive remedies of the purchaser shall be, at the option of AB Technology Group, the return of the products and repayment of the price or the repair and replacement of nonconforming products and in no event shall AB Technology Group be liable for the incidental and consequential damages arising from any cause whatsoever.
- Product Liability:** Purchaser acknowledges that AB Technology Group has no control over and is not responsible for the manner in which the products will be used or otherwise dealt with by the purchaser. The purchaser therefore agrees to assume all responsibility for any and all sums which AB Technology Group and/or the purchaser become obligated to pay because of bodily injury or property damage caused by or resulting directly or indirectly from the installation, maintenance, use or operation of any products or the failure of the products to comply with any safety laws or regulations. Purchaser shall indemnify and hold AB Technology Group harmless from and against any and all actions, claims or demands arising out of or in any way connected with the installation, maintenance, use or operation of the products, or the design, construction or composition of any items or items made or handled by the products supplied hereunder, including any such actions, claims and demands based in whole or in part on the default or negligence.
- Proprietary Rights:** Any and all models, drawings, sketches, plans and other information supplied by one party to the other shall remain the property of the party who shall have supplied it. The other party may not use any such material or information except with respect to the products and/or services, which are subject to this sale transaction. Any product or service sold hereunder shall not constitute a license to use any of the proprietary rights of AB Technology Group.
- Applicable Law:** The terms and conditions of any contract arising out the transaction between the parties hereto shall be construed in accordance with the laws of the Province of Ontario.
- Acceptance:** Hereafter, whether it be verbally or by fax or mail or e-mail, any purchase order issued to AB Technology Group shall fall under these terms and agreement.
